

Exercise 4

Group work:

What experiences have you had with tracking?

Do you use adblockers, or not? & why?

How trackable are you (your browsers, your phone)?

How old are your cookies?

Do you have DNT (do not track) enabled?

Look at the PII paper; http://www.eurecom.fr/~andreou/papers/PII_Oakland2018.pdf - which attacks work on you?

What could your group do to reduce this personal targeting?

Bring 4 slides to tomorrow's class.
